

CABM SEMINAR SERIES 2021-2022

October 6th at noon

Jeremy Wilusz, Ph.D. – UPenn Perelman School of Medicine
“Harnessing RNA Endonuclease to Control Gene Outputs”

Host: Mehdi Pirouz, Ph.D.

November 3rd at noon

John J. Mekalanos, PhD – Harvard Medical School
“TBD”

Host: Ann Stock

December 1st at noon

Gina Turrigiano, Ph.D. – Brandeis University
“The Ups and Downs of Circuit Homeostasis”

Host: Aaron Milstein, Ph.D.

January 19th at noon

Anne-Marie Oswald, PhD – University of Chicago
“Synaptic Plasticity and Assembly Formation in the Olfactory Cortex”

Host: Aaron Milstein

February 2nd at noon

Lynne E. Maquat, Ph.D. – UCSF
“Loss of the Fragile X Syndrome Protein FMRP Results in Misregulation of Nonsense-Mediated mRNA Decay”

Host: Mehdi Pirouz, Ph.D.

March 2nd at noon

Lydia W. Finley, PhD – Memorial Sloan Kettering Cancer Center
“Metabolic regulation of cell identity”

Host: Alexander Valvezan, Ph.D.

April 6th at noon

Marcelo Jacobs-Lorena, Ph.D. – Johns Hopkins Bloomberg School of Public Health
“TBD”

Host: Masayori Inouye, Ph.D.

May 4th at noon
